REDRESS

ABOUT GET REDRESSED MONTH

We're buying more clothes, wearing them less often and throwing them away faster. These clothing could have been reused, resold or recycled but eventually end up in landfill.

From wasting precious resources to contributing to global greenhouse gas emissions, our poor choices continue to have a detrimental effect on our planet. However, with our actions as individuals and as a society, we can make a positive impact.

Since 2018, Get Redressed Month has been one of Hong Kong's largest consumer awareness campaigns about circular fashion. Organised by Redress, this local, annual campaign gathers 100+ companies, clubs, organisations, schools and the general public over a month to

- ❖ **Raise awareness** on the environmental impacts of our choices;
- ❖ **Shift attitudes** about clothing consumption to reduce fashion waste.

GRM 2024: YOUR CLOTHES, OUR PLANET.

According to our 2020 study, **two in five Hong Kongers discard their clothes after a year or less**. Many of them will end up in landfill, where we send an estimated 404 tonnes of textiles daily in Hong Kong, of which 50% is estimated to be clothing.

As part of Get Redressed Month in May 2024, we are introducing the theme "Your Clothes, Our Planet". It invites consumers in Hong Kong to emotionally reconnect with their clothes so that they may be loved longer, leading to reduced fashion waste.

In addition to our traditional activities for companies and schools, we are launching new initiatives for the general public. These activities include:

- ❖ Public exhibition and communication campaign (more in next slide)
- ❖ Public seminar
- ❖ 'Sip & Thrift' customer benefits programme

YOUR CLOTHES, OUR PLANET: PUBLIC EXHIBITION & COMMUNICATION CAMPAIGN

We have chosen 16 people from various backgrounds, including influencers, social leaders, sustainable fashion lovers, and everyday heroes, to tell us the story of their favorite piece of clothing. Whether it's a sweater given by a loved one or a dress bought over a decade ago, these clothes hold special memories and emotions.

Through these unique stories, we hope to inspire Hong Kong consumers to reconsider their relationship with clothing and the environment.

Follow our Instagram and Facebook accounts to discover their stories and the photos from February to May.

In May, we will host a public exhibition featuring these stories as well as an art installation that highlights the issue of clothing waste and the importance of sustainable clothing choices.

WHY SHOULD WE PARTICIPATE IN THE CAMPAIGN?

Get Redressed Month is about more than just clothes.

Companies joining as participants enable changes that:

- Inspire action for sustainability in fashion
- Help those in need and show your commitment to social responsibility
- Build a sense of community within your team and create lasting friendships through community service
- Expand your impact on future generations

MORE ABOUT GET REDRESSED MONTH 2024

ENABLING SCHOOLS' PARTICIPATION

We recognise that involving young generations is pivotal for establishing a sustainable fashion system as they are the consumers of the future. Thanks to fees paid by corporate participants, we are able to offer the Get Redressed Month campaign to primary and secondary schools free of charge each year.

This enables us to not only create educational resources and communication materials for clothing collection, but also supports our team in delivering educational talks in schools, and students in creating their own activities.

In 2022, corporate fees supported:

HOW ELSE CAN YOU SUPPORT THE CAMPAIGN?

Join forces with us beyond participating in the campaign.

In addition to taking part in the campaign, companies can consider supporting the campaign in the following ways:

- Joining as a key financial sponsor (Gold, Silver, and Bronze packages available with prominent branding benefits)
- Providing in-kind support such as catering, printing, music, and logistics
- Media collaboration to reach a wider audience

ABOUT REDRESS

“Accelerate the change to a circular fashion industry by educating and empowering designers and consumers”

Redress is a Hong Kong headquartered, Asia focused environmental NGO with a mission to reduce clothing’s negative environmental impacts.

Our dynamic programmes aim to

- ❖ Minimise the negative impacts of fashion
- ❖ Promote innovative new models
- ❖ Drive growth towards a more sustainable industry via the circular economy.

Working directly with a wide range of stakeholders, (including designers, manufacturers, brands, educational bodies, government and consumers), Redress aims to create lasting environmental change in fashion.
